CREATE YOUR BESPOKE FORMULA

- Complete a skin history survey
- Analyze your photo with AI technology
- Perform a skin genetics test
- Consult with a skin health specialist

YOUR SKIN, YOUR FORMULA

Our Universkin™ P. serum integrates camelina oil, Vitamin E and biomimetic peptides. Its structure allows for the addition of at least 3 pure active ingredients per bottle.

PRECISION

The active ingredients you need, in the concentration you need

ADAPTABILITY

Age, season, targeted area: your formula will evolve with you

EFFICACY

Freshness and purity of the active ingredients for clinically proven results

INNOCUITY

Tested under dermatological control, it limits the risks of irritation or allergic reaction

Universkin™ is a French pharmaceutical company, founded in 2006 by a team of scientists consisting of dermatologists, plastic surgeons, biologists, pathologists, chemists, and pharmacists.
